

DESIGN BUILD.

RQ offers an in-house design department with extensive design-build experience on military projects. The unique integration of design and construction enhances coordinated workflow, increased efficiency, information share, and continued improvement. Our resources ensure the process is streamlined and that each step generates value.

In the past five years, RQ has completed multiple successful design-build projects for the Department of Defense, as showcased below. Currently, RQ has 89% Outstanding-rated design-build projects, with the remaining projects rated Above Average.
